

# What is your pathway to the future?

## WORKSHEET: BUILD YOUR PATHWAY

Look at your archetype’s learning stack. What resources is your fictional counterpart in the future using to build peak performance? Do you have access to the same resources? Can you get access to them? Do you have other resources that your archetype doesn’t have?

Start to list the resources you think are most important for your work+learn journey. Put a checkmark next to those that you can use right away to build the skills in your peak performance zone. Put a star next to those you need to add to your learning path in order to achieve peak performance. By mapping out a path like this, you’ll discover partners, resources and new ways of learning and earning to aid you on your journey. Remember, this is just a starting place—your learning stack will grow throughout your life.
